

RALEIGH VILLAGE EAST NEWS

29th of June 2021

PRESIDENT BIDEN VISITS RALEIGH

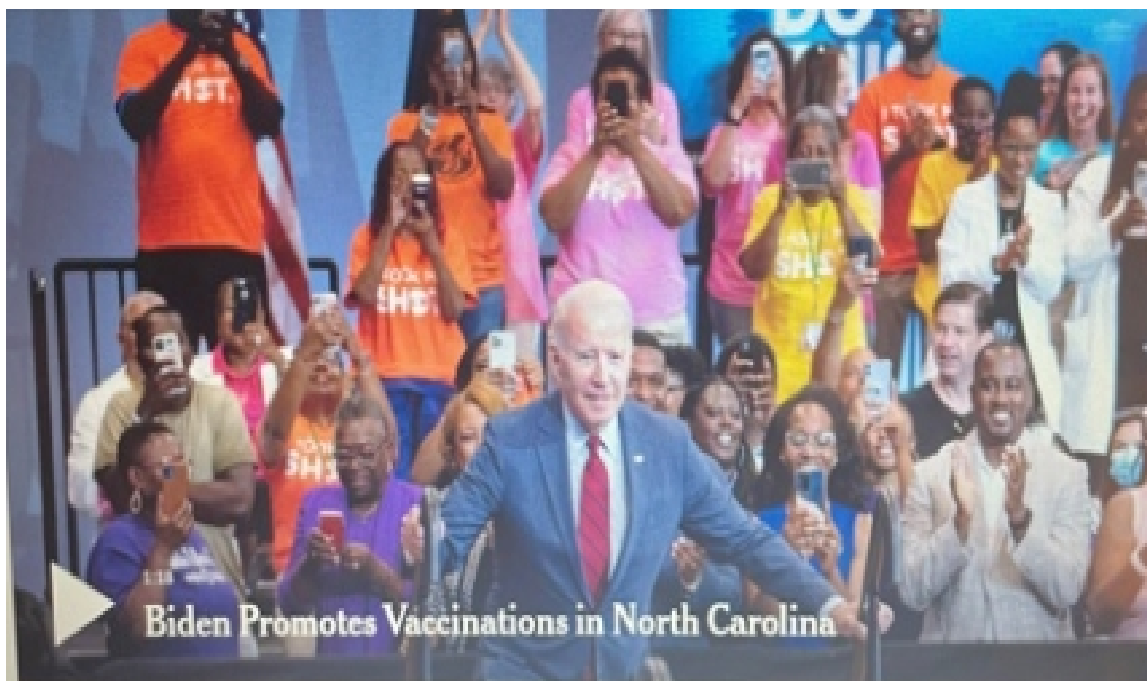

What an honor it was to have President Biden come to Raleigh to thank organizations like ours and the partners for our work with COVID vaccines, especially in marginalized communities.

To all of you wonderful people that have volunteered with this effort and supported Raleigh Village East in so many ways, we are sorry we did not have enough allotted invites for everyone.

He made a heartfelt pitch to encourage everyone to get a COVID vaccine, acknowledging that he was preaching to the choir.

We certainly upped the average age of the attendees and people doing this important work, but it was a testament that seniors have a lot to give back.

Some of the pictures of the day were taken as selfies by a 78 year-old sitting President.

We would ask that you share this with friends and family and encourage them to sign-up on our website to learn more about aging in place. Maybe the best is truly yet to be.....

Please, add me to the [mailing list](#).
