

## RALEIGH VILLAGE EAST NEWS

**1st of February 2021**

### **RVE NEIGHBORS ARE GETTING VACCINATED!**

We at Raleigh Village East have been working to help as many of our eligible neighbors as possible to get a COVID vaccine, primarily following every lead to find places to sign up, but also taking a few people to the appointment.

When Merrilee Jacobson, a member of our board, got her 91 year old neighbor signed up through one of those links and then took her to the appointment, a News & Observer film team decided to follow the woman through the process. [This video](#) tells the story.

If you are eligible and are having difficulty finding a spot, please email us at [raleighvillageeast@gmail.com](mailto:raleighvillageeast@gmail.com) and we will do our best to help. **Triangle counties are starting to vaccinate older adults. Here's how to get a shot.**

**Do you have information to share?** We shared this video on our new Facebook group, too. If you are a Facebook user please join our RVE group. It is a great way to post links and connect with friends. Help us get the conversation going! Link:
